

KEOTSHEPILE NDI MANDE

Graduate Software Developer

Johannesburg, Sandton | 072 151 3020 | keotshepilendimande@gmail.com | GitHub: [JoyNdimande](#) | Portfolio: [K.N Portfolio](#)
| LinkedIn: [Keotshepile Ndimande](#)

Professional Summary

Software Developer graduate with hands-on experience building full-stack web applications, desktop applications, and secure RESTful APIs. Proficient in C#, Java, JavaScript, Python, React, Node.js, SQL, and Git, with practical experience developing responsive user interfaces, implementing authentication and role-based access control, and deploying applications using Microsoft Azure. Passionate about writing clean, maintainable code, solving real-world problems, and continuously learning modern software engineering practices while contributing to collaborative development teams.

Core Competencies

Full-Stack Web Development • Desktop Application Development • RESTful API Development • Object-Oriented Programming (OOP) • Database Design & Management • Authentication & Authorization • Software Testing & Debugging • Version Control (Git) • Agile & Scrum • Problem Solving

Technical Skills

Programming Languages: C#, Java, JavaScript (ES6+), Python, HTML5, CSS3, SQL

Frameworks & Technologies: .NET Windows Forms, React.js, React Native, Node.js, Express.js, Bootstrap, Expo

Databases: Microsoft SQL Server, MongoDB, PostgreSQL/Supabase

Backend Development: C# .NET Core Web API, Python, Django, Supabase Auth, SQL

Developer Tools: Git, GitHub, Visual Studio, Visual Studio Code, Postman, Docker (Basic), Microsoft Azure

Software Development: RESTful API Development • CRUD Operations • Authentication & Authorization • Role-Based Access Control (RBAC) • Object-Oriented Design (OOD) • Object-Oriented Programming (OOP) • Software Development Life Cycle (SDLC) • Software Testing • Debugging • Requirements Analysis • API Integration • Version Control

Education

CTU Training Solutions

Software Development (Cybersecurity Specialization) 2023 – 2026

Relevant Courses: Cybersecurity, Advanced Software Development, Database Systems, DevOps

Professional Experience

CTU Training Solutions

Junior Software Developer (Work-Integrated Learning) | 2024

Technologies: React.js • Node.js • Express.js • MongoDB • JavaScript • Axios • Git • GitHub

- Developed a full-stack asset management web application following the Software Development Life Cycle (SDLC), using the MERN stack to deliver secure, scalable, and maintainable software solutions. (MongoDB, Express.js, React, and Node.js).
- Developed and integrated secure RESTful APIs supporting CRUD operations, user authentication, Role-Based Access Control (RBAC), and database management.
- Implemented user authentication, authorization, and Role-Based Access Control (RBAC) to enhance application security and protect sensitive business data.
- Integrated responsive React.js user interfaces with backend RESTful APIs using Axios, improving application performance and user experience.
- Utilized Git and GitHub for source control, version management, code collaboration, and Agile software development practices.

Mdaka Advanced Technologies Business Website ([mdakatech](#))

Co-Founder & Software Developer (Team Project)

Technologies: HTML5, CSS3, JavaScript, Bootstrap, Git, GitHub

- Co-founded **Mdaka Advanced Technologies**, a technology startup delivering web development and digital solutions.

- Collaborated with a multidisciplinary development team to design, develop, test, deploy, and maintain the company's corporate website.
- Built responsive user interfaces using HTML5, CSS3, JavaScript, and Bootstrap while maintaining consistent branding and user experience.
- Applied Git and GitHub for source control, collaborative development, and version management.

Hoërskool Garsfontein

- IT Administrator / Network Technician Intern (Work-Integrated Learning) | 2025
- Technologies: Windows • Network Infrastructure • TCP/IP • Printers • Hardware Support.
- Provided first- and second-line technical support for staff and students by resolving hardware, software, and network-related issues.
- Configured, maintained, and supported network infrastructure, end-user devices, printers, and database-connected systems while documenting technical procedures.
- Performed troubleshooting, software testing, debugging, and system maintenance to improve infrastructure reliability and overall IT service delivery.

Projects

Secure Password Manager

Technologies: C#, .NET Windows Forms, SQL Server, AES Encryption, Git, Visual Studio

- Developed a secure Windows desktop application for storing and managing encrypted user credentials.
- Implemented CRUD functionality for creating, updating, deleting, and organizing stored credentials.
- Applied Object-Oriented Design (OOD) and Object-Oriented Programming (OOP) principles to develop scalable, maintainable, and reusable application architecture.
- Designed an intuitive Windows Forms interface focused on usability and security.

Portfolio Website ([Keotshepile Ndimande | Portfolio](#))

- Designed and developed a responsive personal portfolio website to showcase software projects, certifications, and technical skills.
- Optimized website performance, accessibility, and cross-device compatibility using modern front-end development practices.
- Integrated GitHub repositories and downloadable CV functionality to enhance recruiter engagement.

Automated Printing Management System

Technologies: C#, Windows Forms

- Developed an automated printing management solution to streamline print requests within a school environment.
- Implemented FIFO queue processing to efficiently manage multiple print jobs.
- Built a notification system to alert users when print jobs were completed and ready for collection.
- Improved workflow efficiency by reducing manual print management tasks.

Certifications

- Microsoft Security Operations Analyst Associate (SC-200)
- Microsoft Azure Security Engineer Associate (AZ-500)
- National Certificate: Information Technology – Systems Development (MICT SETA)
- National Certificate: IT Systems Development (CTU Training Solutions)
- Certiport Certified: IT Specialist

Languages

- English – Fluent
- Afrikaans – Fluent
